SUMMARY

I am a passionate Junior Software Developer currently pursuing a Bachelor of Information Technology at the University of Colombo School of Computing (UCSC). I specialize in full-stack development using Spring Boot, Laravel, Angular, and MySQL to build scalable and efficient web applications. During my internship as a Laravel Developer, I contributed to ERP, POS, and real-time systems by implementing new features and optimizing performance. I am a strong problem solver with solid OOP knowledge, continuously improving my skills in modern software development.

Work Experience

- **Internship (Laravel Developer)**

Nexmatrixlab => 2023/11/13 - 2024/05/13

I completed my Internship as a Laravel Developer at NexmatrixLab (Pvt) Ltd from November 2023 to May 2024. I contributed to ERP and POS systems by developing modules for medical services, delivery systems, and stock management, enhancing functionalities, fixing bugs, and implementing new features, while supporting full-stack development with Laravel.

Technical Skills

Front end : Angular VueJS Java Script (ajax) HTML/CSS/ Bootstrap

Back end : Spring Boot Laravel Java PHP

Database : MySQL MSSQL Mongodb

Education

2021 - Present

University Of Colombo School Of Computing (UCSC)

Bachelor of Information Technology

The degree program's primary focus was the development of **CBIS** for businesses.Completed the first year with a GPA of 2.38.

2005 - 2018

Royal Central College - Polonnaruwa

GCE Advanced Level Exam - 2018

Sat for the exam in the commerce stream with the ICT stream.

GCE Ordinary Level Exam - 2015

Score 1A's 2B's 3C's 3Ss

2025 - Present

Software Engineering Diploma

The Diploma Reading to the ICET Institute

Languages

- Sinhala
- English

Soft Skills

- Problem solving skills
- Time management
- Communication skills
- Leadership
- Team work

Projects

- **Chat App**

I have experience in PHP programming and web application development using Laravel, Vue JS, WebSocket (Pusher), and Bootstrap, with a focus on real-time chat systems, and I use tools like IntelliJ IDEA and PhpStorm for coding and project management.

Programming languages: PHP
Technologies: Laravel (Rest API), Vue js , Bootstrap, WebSocket (Pusher),
Tools: IntelliJ IDEA, Php Storm

- **Blog System**

I created an education blog using OOP PHP and Bootstrap to share knowledge, working on the project with VS Code.

Programming languages: PHP OOP
Technologies: Bootstrap
Tools: VS Code

- **Online Store**

I developed IRA Enterprises' secure online shopping platform using PHP, Laravel (REST API), Angular, Bootstrap, and Angular Material to ensure verified sellers and prompt delivery, and developed it with IntelliJ IDEA and PhpStorm.

Programming languages: PHP
Technologies: Laravel (Rest API), Angular, Bootstrap, Angular Material
Tools: IntelliJ IDEA, Php Storm

- **Phone Shop**

I developed the MobileCity nationwide online shopping platform using PHP and Bootstrap, focusing on secure transactions and fast delivery, with VS Code as the development tool.

Programming languages: PHP
Technologies: Bootstrap
Tools: VS Code

Projects (Nexmatrixlab)

- **Delivery system and web page**
  - Implemented a new login page feature., modification error in home page slider, mobile app.
  - Add to the report feature (product commission report, Refund report, payment report).
  - Add to the zone filter feature (Campaign view, Banner view, Delivery Man view).
  - Date filter bug fix
- **Medical service system with a POS system and a web application.**
  - Add the Medical Service page and modifications
- **Rt Ref Services**
  - Enhanced date filtering functionality improves data accuracy and usability.
  - Multiple customer address feature add to customer view and service order view

(Merk Distribution web, Stock Manager POS system, Matrix Cloud ERP system, Click4ac ERP system)

Projects (UCSC)

Final Projects

- **Hotel System**

The hotel system use to room booking and ordering food. It is a Campus Final Project

Programming languages: PHP
Technologies: Laravel (Rest API), Angular, Bootstrap, Angular Core UI
Tools: IntelliJ IDEA, Php Storm

Projects (ICET)

- **FashionFlow POS**

I successfully developed and completed my ICET Institute final project using JavaFX, IntelliJ IDEA, and SceneBuilder to enhance my Java fundamentals.

Programming languages: Java
Technologies: JavaFX
Tools: IntelliJ IDEA, SceneBuilder

- **MobileCity Web System**

I developed coursework at the ICET Institute utilizing Spring Boot, Angular, Tailwind CSS, and Spring Security with IntelliJ IDEA to enhance my Java skills.

Programming languages: Java
Technologies: Spring Boot, Angular, Tailwind CSS, and Spring Security
Tools: IntelliJ IDEA

- **Mobilecity Pos**

I successfully completed coursework at ICET Institute, using JavaFX, IntelliJ IDEA, and SceneBuilder to strengthen my Java fundamentals.

Programming languages: Java
Technologies: JavaFX
Tools: IntelliJ IDEA, SceneBuilder

Group Project

- **SpringBoard**

As part of the SpringBoard group project, I worked with Spring Boot and Angular while managing team collaboration through GitHub, including pull requests, peer reviews, and structured merges.

Programming languages: Java
Technologies: Spring Boot, Angular, Tailwind CSS, and Spring Security
Tools: IntelliJ IDEA

Certificates

LinkedIn (paid)

- **Spring 6 and Spring Boot 3 First Look**

Completed the Spring 6 and Spring Boot 3 First Look course on LinkedIn Learning, gaining insights into the latest features and improvements in the Spring ecosystem.

- **Learning Vue.js**

Completed the Learning Vue.js course on LinkedIn Learning, gaining foundational skills in dynamic content management, form bindings, styling logic, and building reusable Vue components.

- **Red Hat Enterprise Linux 8 Essential Training**

Completed the Red Hat Enterprise Linux 8 Essential Training course on LinkedIn Learning, gaining hands-on experience in Linux system configuration, networking, authentication, and essential server services.

- **Vue.js: Testing and Debugging**

Completed the Vue.js: Testing and Debugging course on LinkedIn Learning, gaining skills in unit testing, component testing, and debugging Vue applications using developer tools

- **Introduction to Web Design and Development**

Completed the Introduction to Web Design and Development course, learning the fundamentals of web technologies, planning, prototyping, and front-end development.

- **Advanced Laravel**

Completed the Advanced Laravel course on LinkedIn Learning, mastering advanced Eloquent features, authorization, testing, and background processing with queues, notifications, and scheduling

- **Building RESTful APIs in Laravel**

Completed the Building RESTful APIs in Laravel course on LinkedIn Learning, learning how to design, build, and test RESTful APIs using Laravel and Postman.

- **Node.js Essential Training**

Completed the Node.js Essential Training course on LinkedIn Learning, gaining foundational knowledge of Node.js, modules, globals, and file management with streams.

Free Course (other)

- Data Structure & Algorithms in Java for Intermediate Level
- Networking Academy Learn-A-Thon 2020
- Introduction to Cybersecurity
